Curan Man: Compact ready-to-use male catheter with insertion device

Working to achieve a better quality of life

Asking questions, listening, thinking and acting - that is what Curan is all about. We develop and produce highly reliable and innovative products, made according to the requirements of end users and professionals. Our mission is to improve the quality of life of people with incontinence by developing, producing and distributing high-quality products which offer our end users a comfortable, hygienic, pain-free and problem-free solution for intermittent catheterisation.

- **Smooth polished eyelets**

- **Box of 30**

Offering you the highest level of quality control

All Curan products meet the highest quality standards. Before a product leaves our production unit, it will have passed a number of very strict individual quality checks. Each catheter is individually tested and guaranteed safe to use. We proudly hold EC and ISO13485 certification and offer you the highest degree of quality, security and comfort.
